# Your products, in 3D, on your page.

## HOW THE BUSINESS WORKS

We photograph products and turn them into 3D. Shops get the viewer free with their files. Shops keep their files on their own site, so there is nothing for us to run per view.

## FEATURES

- Loads after your page, so your page stays fast.
- Your files stay on your own site.
- No cookies, no tracking.
- Works on phones and computers; shows the photo where 3D can't run.
